Professional Summary

BCA graduate and Software Developer with hands-on experience in full-stack web development through a 6-month internship and project work. Skilled in Node.js, Express.js, React.js, MongoDB, REST APIs, JWT authentication, RBAC, and Git. Experienced in developing backend APIs, integrating frontend applications with backend services, implementing authentication and authorization, and building database-driven web applications. Seeking a Junior Backend / Node.js / Full-Stack Developer role.

Technical Skills

Languages	JavaScript (ES6+), C++, C, Python
Backend	Node.js, Express.js, RESTful APIs, JWT, RBAC, Middleware, Error Handling, Validation
Frontend	React.js, React Hooks, React Router, Redux, Redux Toolkit, TypeScript, HTML5, CSS3
Databases	MongoDB, MySQL, Database Design
Tools	Git, GitHub, Linux, Postman, MongoDB Compass, VS Code
Deployment	Render, Vercel, Netlify
Fundamentals	Data Structures & Algorithms, OOP, Problem Solving, MVC Architecture

Experience

Full-Stack Web Development Intern — Aug 2025 – Jan 2026

Brainnexa

- Developed RESTful APIs and backend services using Node.js and Express.js, integrating backend application logic with React.js frontend components.
- Built and integrated 5+ responsive React.js components with backend APIs to support complete application workflows.
- Worked with Git/GitHub collaborative development workflows, including feature branches and pull requests for code integration and review.

Projects

AI-Powered Invoice Generator — *Node.js, Express.js, MongoDB, React.js, Clerk*

- Developed 8+ RESTful CRUD APIs for invoice creation, management, and lifecycle tracking across Paid, Unpaid, and Overdue states.
- Built a multi-user invoice management application with Clerk authentication and role-based session handling.
- Implemented complete React.js frontend-to-backend API integration for invoice management workflows.

Hiring Tactics – Job Portal — *Node.js, Express.js, MongoDB, JWT, RBAC*

- Developed 5+ REST APIs for job posting, applicant tracking, and employer dashboard workflows.
- Implemented JWT authentication and RBAC to secure protected endpoints and enforce role-specific authorization.
- Designed MongoDB data models with indexed search and multi-filter queries to support job discovery and application workflows.

Education

Bachelor of Computer Applications (BCA) — Aug 2022 – Aug 2025

Punjab Technical University — CGPA: 8.43

Class XII — 2021

+2 High School Nabiganj Bazar — 63.8%

Class X — 2019

High School Nabiganj Bazar — 66%

Certifications

- Advanced Diploma in Computer Applications (ADCA) – STP Computer Education, 2025
- Web Development Certification – STP Computer Education, 2024
- Cybersecurity Fundamentals – ANSH InfoTech, 2024
